Rebuke of Sectionalism.

The following eloquent and manly rebuke of the spirit of sectionalism was administered by the very able senator from Mississippi, Col. Davis, in a late speech in the U. S. senate, during a running debate :-* * * To what issue are you now

pressing? To the conclusion that because within the limits of a territory slaves are held as property, a state is to be excluded from the Union. I am not in the habit of paying lip-service to the Union. The Union is strong enough to confer favors; it is strong enough to command service. Under these circumstances, the man deserves but little credit who sings paeans to its glory. It through a life, now not a short one, a large portion of which has been spent in the public service, I have given no better proof of my affection for this Union than my declarations, I have lived to little purpose, indeed. I think I have given evidence in every form in which patriotism is ever subjected to a test, and I trust whatever evil may be in store for us by those who wage war on the constitution and our rights under it, that I shall be able to turn at least to the past and say, "Up to that period when I was declining into the grave, I served a government I loved, and served it with my whole heart." Nor will I stop to compare services with those gentlemen who have fair phrases, whilst they undermine the packages and small boxes will be forwarded to any point on very foundation of the temple our fathers built. It, however, there be here those who do really love the Union and the Constitution, which is the life-blood of the Union, the time has come when we should look calmly. though steadily, the danger which besets us, in the face.

Violent speeches denunciatory of people in any particular section of the Union; the arraignment of institutions which they inherrited and intend to transmit, as le prous spots on the body politic, are not the means by which the fraternity is to be preserved, or this Union rendered perpetual. These were not the arguments which our fathers made when, through the struggles of the revolutionary war, they laid the foundation of the Union These are not the principles on which our constitution, a bundle of compromises, was made. Then the navigating and the agricultural states did not war to see which could most injure the other; but each conceded something from that which it believed to be its own interest, to promote the welfare of the other. Those debates, whilst they brought up all that struggle which belong to opposite next term of this Court, and plead, answer or demur, or the interests and opposite localities, show none of that bitterness which so unfortunately characterizes every debate Test, SAM'h R. BUNTING, CI'k. in which this body is involved.

The meanest thing—I do not mean otherwise than the smallest thing-which can arise among us, incidentally, LL PERSONS ARE HEREBY FOREWARNED against runs into this sectional agitation as though it were an A hunting, fishing, ranging stock, or in any other way epidemic, and gave its type to every disease. Not even could the committees of this body, when we first assembled, before any one had the excuse of excitement to plead, be organized without sectional agitation springing up. Forcibly, I suppose gravely and sincerely, it was THE SUBSCRIBER IS NOW IN MARKET FOR contented here that a great wrong was done because LIKELY YOUNG NEGROES, from five to thirty New York, the great commercial state, and the empoyears old, for which the highest cash prices will be paid. This will go forth to remote corners, and descend, perhaps, to after times, as an instance in which the democratic party of the senate DR. WM. W. LANE, OFFICE CORNER OF MARKET and Second Streets, opposite Carolina Hotel. behaved with unfairness towards its opponents; for with it will not descend the fact that the democratic party arranged for itself its portion of the committees, taking the control of them, and left blanks on the committees to be filled by the opposition; that the opposition did fill the blanks; that the opposition had both the senators cated article to the Planters of N. > SENTENCE OF INCENDIARIES.—A Warning to Young Men.—On Saturday, in the Philadelphia Court of Sessions, John McClare, Daniel McMullin and Andrew Kelly, convicted of arson, were brought up for sentence, when Judge Ludlow addressed them as follows:

A few days ago it was my painful duty to pass sentence upon a young man (Richard Maberry) for atof doubt of your guilt. A few years ago, though you may not be aware of the fact, had you been placed in ing upon the borders of the grave instead of the portals of a prison, for death was then the penalty of your offence. Odious as was the crime, modern philanthropy rescued felons such as you from an ignominious end, and consigned them to the penitentiary. How far the humane change has benefitted the cause of public justice I will not here undertake to say.

During the last six months the crime of arson in Philadelphia has been of fearful frequency. The court has been officially informed that upwards of fifty persons have been arrested in that time for incendiarism. Young men and boys have fired houses with no other apparent motive than the excitement of a fire, and the bringing to the scene of conflagration the adherents of rival en-
